

Easy eCommerce User Guide

Web Sale Setup

1 INTRODUCTION

The *Web Sale Setup* application enables definition of products, and thereafter setting them up for sale online. The Web Sale Setup application is accessible by the Administrator. The Web Sale Setup menu is shown hereunder:-

Figure 1

Under the **PRODUCT UNITS** tab, various product units can be defined, including their datatype, whether Integer or Real. Each product will be defined to have one of these pre-defined units of measure. For example:-

List of Product Units

Sl. No.	Unit ID	Unit Name	Unit Type
1	Nos	Numbers	IntegerType
2	Bunch	Bunch	IntegerType
3	kgs	kilograms	RealType
4	mtr	meter	RealType

Figure 2

2 PRODUCT CATEGORIES TAB

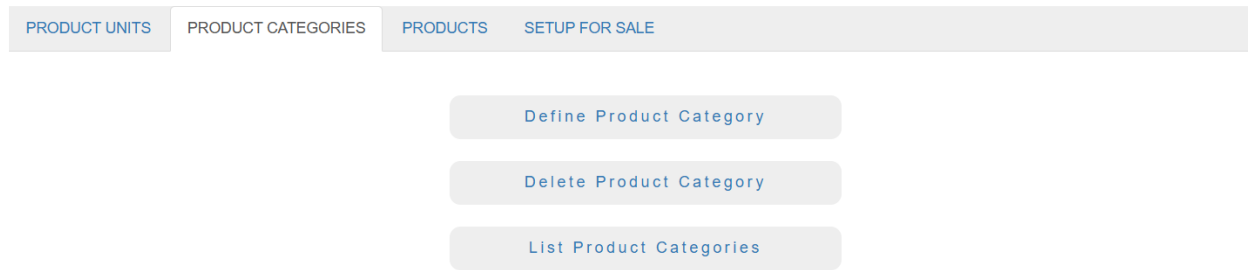

Figure 4

Under this tab, various product categories can be defined. Each product will be defined to belong to one of these pre-defined product categories. For example:-

List of Product Categories

Sl. No.	Category ID	Category Description
1	FRUITS	Different types of fruits
2	GREENS	Green Leafy Vegetables
3	VEGGIES	Vegetables
4	SWEETS	Different types of sweets
5	GROCERIES	Different types of grocery items
6	SNACKS	Different types of snacks

Figure 5

3 PRODUCTS TAB

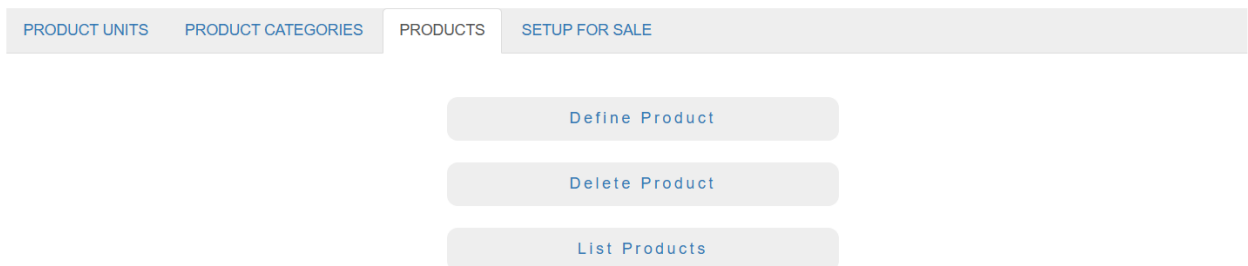

Figure 6

Under this tab, various products can be defined. Each product will belong to one of the pre-defined categories, and will have one of the pre-defined units of measure. At this stage, i.e., when none of the

products have been setup for sale online, and their sale price has not yet been fixed, if you click **List Products**, this is what you will see:-

List of Products

Sl. No.	ID	Name	Description	Unit of Measure	Product Category	Up For Sale Online	Unit Selling Price (INR)
